PROFESSIONAL SUMMARY

IT professional with nearly 10 years of experience supporting enterprise environments, administering Microsoft 365, and delivering reliable IT operations for global organizations. Experienced in administering Microsoft 365 Administration, Microsoft Entra ID, Exchange Online, Active Directory, endpoint management, identity and access management, and user lifecycle administration, with a strong focus on security, operational efficiency, and exceptional end-user support.

Skilled in managing user onboarding and offboarding, account provisioning, license administration, mailbox management, access control, endpoint support, and technical troubleshooting across enterprise environments. Experienced in maintaining secure IT operations while ensuring users have the appropriate tools, access, and technical support to perform their work effectively.

Recognized for building strong partnerships with Infrastructure, Engineering, Security, HR, vendors, and business stakeholders to resolve technical issues, improve support processes, and maintain accurate internal documentation. Experienced working with global teams in remote environments while providing reliable technical support, maintaining clear communication, and ensuring day-to-day IT operations run smoothly.

KEY SKILLS

Microsoft 365 Administration | Exchange Online | Active Directory | Identity & Access Management (IAM) | Endpoint Management | User Provisioning | Account Administration | Technical Troubleshooting | IT Operations | Process Improvement | Cross-functional Collaboration | Technical Documentation

PROFESSIONAL EXPERIENCE

IT SUPPORT SPECIALIST

IDX Group (*AU-based Healthcare Company*) | August 2025 – Present

- Administer Microsoft 365, Exchange Online, Microsoft Entra ID, and endpoint management solutions for more than 5,000 users and devices, ensuring secure access and reliable day-to-day IT operations.
- Oversee end-to-end user onboarding and offboarding by provisioning accounts, assigning licenses, configuring mailboxes, and managing role-based access permissions for over 500 user requests each month.
- Deliver technical support for Microsoft 365, Exchange Online, Microsoft Teams, OneDrive, authentication, and endpoint-related issues, completing more than 1,000 service requests while maintaining high service quality.
- Partner with Infrastructure, Engineering, Security, and HR teams to resolve complex technical issues, support user lifecycle management, and minimize service disruptions across multiple business units.
- Develop and maintain internal documentation, knowledge base articles, and standard operating procedures, improving knowledge sharing and ensuring consistent support processes.
- Manage software deployments to support device compliance, security standards, and operational reliability across the enterprise.

TECHNICAL SUPPORT ENGINEER II

Gladly (*US-based SaaS Company*) | May 2024 – August 2025

- Delivered advanced technical support for SaaS applications, authentication, and platform configurations, handling more than 50 customer requests daily through email and chat while maintaining high customer satisfaction.
- Investigated complex technical issues through root cause analysis, reducing customer downtime and restoring application functionality.
- Managed customer incidents from initial investigation through resolution, escalating high-impact issues to Engineering and Product teams with complete diagnostic findings to accelerate resolution.
- Produced and maintained internal documentation, troubleshooting guides, FAQs, and knowledge base articles that improved knowledge sharing and support consistency.
- Reviewed ticket trends and customer feedback to identify recurring issues, contributing to process improvements and reducing repeat support cases.
- Collaborated with Engineering, Product, Customer Success, and cross-functional teams to communicate product defects, resolve technical issues, and improve the overall customer experience.

IT HELPDESK SUBJECT MATTER EXPERT

Cognizant Technology Solutions (*Enterprise Support for Nike*) | October 2022 – April 2024

- Served as the primary escalation point for Level 1 Service Desk analysts, resolving complex IT incidents and providing technical guidance to support enterprise retail operations.
- Used Jamf Pro technician-level to configure, troubleshoot, and support more than 3,000 managed Apple devices, including device enrollment, policy deployment, managed applications, and endpoint configuration.
- Assisted Service Desk analysts with advanced troubleshooting and ticket escalations, improving incident resolution and maintaining consistent support quality.
- Evaluated CSAT scores, SLA performance, and operational metrics to identify coaching opportunities and recommend service improvements.
- Coordinated with client stakeholders, Engineering teams, vendors, and endpoint support teams during major incidents, minimizing operational disruptions across enterprise environments.
- Created and maintained internal documentation, knowledge base articles, and standard operating procedures to standardize support processes and improve knowledge sharing.
- Coached and mentored more than 150 Service Desk analysts on enterprise support processes, technical troubleshooting, and customer service best practices, strengthening overall team performance.

IT HELPDESK SENIOR PROCESS EXECUTIVE

Cognizant Technology Solutions (*Enterprise Support for Nike*) | March 2021 – September 2022

- Provided technical support for more than 60 daily hardware, software, and access-related incidents across Nike stores and business locations through phone and remote support.
- Troubleshoot POS systems, workstations, printers, barcode scanners, network connectivity, and back-office infrastructure, restoring business-critical services and minimizing operational downtime.
- Managed password resets, account unlocks, and user access requests for more than 6,000 end users while ensuring compliance with identity and security policies.
- Worked with field technicians, third-party vendors, and internal support teams to resolve complex technical incidents and maintain business continuity.
- Supported major incident management by providing real-time status updates and collaborating with cross-functional teams to accelerate service restoration.

TECHNICAL SUPPORT ADVISOR

Concentrix (*BPO for Apple*) | August 2020 – December 2020

- Assisted more than 100 customers daily with Apple device and account-related issues through phone-based technical support and remote troubleshooting.
- Troubleshoot hardware and software issues across iPhone, iPad, Mac, Apple Watch, and the Apple ecosystem, restoring device functionality and improving the customer experience.
- Walked customers through Apple ID, iCloud, device setup, backup, restore, and account recovery procedures, ensuring secure access and successful issue resolution.
- Recorded customer interactions and technical resolutions, maintaining accurate case documentation and compliance with Apple support standards.

TECHNICAL SUPPORT ENGINEER

CSS Corp (*BPO for CenturyLink*) | January 2020 – August 2020

- Provided technical support for more than 100 daily customer inquiries involving internet connectivity, network performance, and service-related issues.
- Configured and troubleshoot modems, routers, and home networking equipment, restoring connectivity and minimizing service disruptions.
- Diagnosed broadband, Wi-Fi, DNS, and network connectivity issues by identifying root causes and guiding customers through effective solutions.
- Coordinated outage escalations with Network Operations and field support teams, communicating timely updates and supporting service restoration efforts.

IT HELPDESK PROCESS EXECUTIVE

Cognizant Technology Solutions (*Enterprise Support for Dunkin' Brands*) | August 2017 – December 2019

- Delivered technical support for more than 50 daily requests from Dunkin' Brands retail stores and franchise locations through phone and remote troubleshooting.
- Troubleshoot POS systems, store workstations, user accounts, network connectivity, and back-office infrastructure, restoring business-critical services and minimizing operational downtime.
- Worked with field technicians, third-party vendors, and internal support teams to resolve hardware failures, equipment replacements, and complex technical incidents while maintaining service continuity across retail locations.

TECHNICAL SUPPORT REPRESENTATIVE

Alorica (*BPO for iolo Technologies*) | November 2016 – July 2017

- Assisted more than 60 customers daily with software installation, licensing, account management, and system performance issues through phone and remote support.
 - Performed remote troubleshooting to diagnose software-related issues, restore application functionality, and improve the customer experience.
 - Guided customers through software installation, activation, licensing, and account recovery, ensuring successful product setup and issue resolution.
 - Maintained detailed records of technical issues, troubleshooting activities, and case resolutions while complying with established support procedures.
-
